When You Can Be Your Real Self—
That's Being Somebody

By FAY KING.

NEW YORK, Aug. 26.—About the only reason that I'd like to have a lot of dough or an old family name is because then you can get away with anything in the dress line without causing mirth or gossip. Look at the stuff Queen Mary wears—but just the same she's Queen Mary, and there isn't any

THIN PEOPLE NEED BITRO- PHOSPHATE

All that most weak, nervous, thin, mentally-depressed people need is ten grains of pure organic phosphate with each meal for a few weeks.

That's what nerve specialists in London, Paris and New York are prescribing with wonderful results. It is natural food for nerve and brain cells and is known to such reliable pharmacists as Peoples Drug Stores as Bitro-Phosphate. Because of its power to help create healthy flesh and strengthen weak nerves, much of it is being sold to people who are lacking in vitality.

CAUTION: Although Bitro-Phosphate is an excellent aid in relieving weak, nervous conditions, its use is not advised unless increased weight is desired.

**Says His Prescription
Has Powerful Influence
Over Rheumatism**

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. Peoples Drug Stores have been appointed agents for Allen's in this vicinity with the understanding that they will freely return the purchase money on the first two bottles to all who state they received no benefit.

National Press Club Orders Special Typewriters and Renovates for Entertainment.

Washington's newspaper colony is making extensive preparations for the reception of visiting journalists at the disarmament conference next November.

The National Press Club is furnishing up its quarters—dusting off the ancient cartoons, preparing for increased dining and lounging room, polishing up the silverware, arranging and rearranging the dog-eared books in the library to make things ship-shape and home-like for the visitors.

It is estimated that at least 100 foreign correspondents will accompany delegates from other nations or be sent by newspapers in countries not directly represented at the conference.

The Press Club will attempt to provide quarters for these writers to eat, lounge, talk shop, or work. Special typewriters, with foreign characters, have been ordered, and special arrangements made for increased telephone and telegraphic service.

Foreign language newspapers, from Europe, Australia and Asia, will be on hand to greet the visitors.

Each foreign newspaper man or special writer representing American publications will be a guest of the National Press Club during his stay in Washington.

A series of conferences of informal nature is planned, in which representatives of journals from Tokyo to Bath may thresh out the questions of the day from the newspaper angle.

The Press Club will also give one or more of its unusual "parties," in which public men forget their dignity and give and take satire on the same ground as the lowly cub reporter.

Other newspaper men's organizations are looking forward to the advent of their foreign fellow-craftsmen, and assistance in their work and entertainment in their leisure hours. The Press Gallery, The Overseas Writers, the Gridiron Club, the Women's Press Club, and the League of American Penwomen are numbered among these.
